

machine

```
graph BT; bracelet --> machine; elliptical --> machine; lift --> machine;
```

The diagram is a simple hierarchy. At the top is a box labeled 'machine'. Below it, a horizontal line connects three boxes: 'bracelet' on the left, 'elliptical' in the center, and 'lift' on the right. A vertical arrow points upwards from the 'elliptical' box to the 'machine' box, indicating a relationship where 'elliptical' is a type of 'machine'.
